Subject: Support the recommendations of the Institute of Medicine!
Date: Thursday, August 18, 2011 11:29:40 AM

As a proud member of the AAUW (American Association of University Women), I join our organization in asking you to follow the recommendations of the Institute of Medicine with regard to coverage of preventive care under the new health care law. Please reject exemptions for religious employers!!!! These services are critical to providing women better access to necessary health care.
